PETITION: Bring forward Gateway Kintore: facilities needed now

Published by Ken McEwen on Apr 18, 2012

Background (Preamble):

Indicative plans have been drawn up for the Gateway Kintore development on site G60 adjoining the Broomhill junction on the A96 at Kintore.

These plans include a supermarket and filling station, along with hotel, restaurants, nursery, play barn, business and sports facilities.

The plans include a proposal to upgrade the Broomhill roundabout, retaining direct access to Kintore for traffic from Aberdeen. Under the alternative plans, this traffic would be diverted.

Petition Text:

We support the Gateway Kintore proposal for the A96 Broomhill junction. The facilities it proposes – notably the supermarket, filling station, leisure and sports facilities – are needed in the community now. We also welcome the proposed retention and upgrade of the Broomhill roundabout.

We therefore call on Aberdeenshire Council, its members and officials, to enable the Gateway Kintore proposals to come forward for a decision to the benefit of Kintore.

Your signature information may also be placed by the campaign organiser on the online campaign signature list at GoPetition.
